

East Antrim

FOCUS

Thank You

In May's election, the people of Northern Ireland made their voices heard.

You chose a society based on inclusion, sharing and delivering for all, no matter your background. Together, you elected 17 Alliance MLAs to represent you and we say thank you.

Across Northern Ireland, history was made, with thanks to your help Alliance took seats in constituencies where the party has never previously had MLA representation.

Those Assembly members have hit the ground running, working to tackle the tough issues and deliver on things which matter to you. You were sick of the chaos consistently seen from the two biggest parties and chose Alliance to bring the positive politics so many want to see.

Unfortunately, not every party is the same. Since May's poll, the DUP has refused to elect an Assembly Speaker, paralysing the entire system and resulting in the gridlock people wanted to see left in the past.

So while that party was happy to sign in and take their

salaries, they won't take their seats to help those suffering on long waiting lists, or ease the pain of those having to decide between heating their homes or putting food on the table.

Although the approach of ransom politics from the DUP continues, Alliance will not engage in political games. We won't let them get away with it – that's why Alliance was the first to call for the salaries to be cut for those blocking the restoration of the Assembly.

And it's why we've published our proposals to reform the Assembly and Executive. Not only would it ensure those who wish to participate in our democracy can, but it means votes of those MLAs who prioritise day-to-day issues instead of green and orange politics will be fully counted.

Thanks to you, the Assembly has a strong Alliance team ready to lead and hold others to account. No more disillusion and deadlock but solutions and delivery, in a progressive Northern Ireland where everyone is treated equally.

Together, you voted for it.
Together, we can make it happen.

Would you like to join our team in East Antrim?

TOGETHER WE CAN

-  Reform the Assembly, so no party can hold it to ransom.
-  Build a united community through expanding integrated education and shared housing.
-  Fix our broken health service, address waiting lists and invest in mental health.
-  Fight the climate crisis by delivering a Green New Deal and creating thousands of sustainable jobs.
-  Keep our community safe by tackling all forms of paramilitarism and violence.
-  Ensure none of us need to choose between heating our home and feeding our family.

ALLIANCE IS GROWING

The Alliance Party has revealed a new Councillor for East Antrim following the party's recent success in the Assembly election.

Maeve Donnelly was selected by local members at a special meeting recently. She is set to represent Larne Lough and has a long history of working to support local people.

Speaking on her new role, Maeve said: "As a local team, we have worked hard over the past number of years to take our vision for a more open and inclusive society to the people of our area. And they have responded to the kind of society we want to build across Northern Ireland.

"I'm delighted to now be taking on a more formal role locally and will work hard to deliver for everyone. Please get in touch if you need anything."

Speaking about her selection, she added: "It is a great honour to take up the role of Alliance Councillor for Larne Lough. I've seen first hand the hard work and dedication that the local Alliance team have all given to delivering for everyone.

"This is an exciting time to step forward and represent Alliance and I look forward to working hard to ensure everyone across East Antrim has a voice and someone who will champion the growing issues impacting our everyday lives."

"Thanks to your votes, a stronger Alliance team is already challenging the status quo at the Assembly.

We're working hard to tackle the cost of living, fix the health service and reform Stormont to ensure we end the cycle of dysfunction.

With your continued support, together we can make this happen."
